## McKinnon Material's Durogloss

McKinnon Material's "Durogloss" is an Industrial Epoxy and Acrylic Urethane/High Performance Urethane system that creates an extremely durable surface for old and new concrete. The high traffic tolerance and chemical resistance of "Durogloss" allows for residential, commercial, and industrial use in both interior and exterior applications. The varied base colors and paint chip choices can create a custom combination for any decor. "Durogloss" is the excellent choice for a beautiful, easy to maintain, yet tough concrete surfacing material.

## McKinnon Materials Natural Stone and Epoxy

Natural Stone and Epoxy is durable in all weather types from subzero to tropical and is designed to bear heavy loads including automotive traffic.

Standing water is eliminated because Natural Stone and Epoxy is porous allowing water to pass through.

Available in a wide variety of colors and sizes, Natural Stone and Epoxy allows a custom match to any decor.

## McKRETE™ OVERLAY

**McKrete Overlay System** is a stamped concrete product applied over existing concrete. With a variety of patterns and colors, it can be used on any interior or exterior concrete surface.

**McKrete Overlay System** is applied at 1/4 to 3/8 of an inch over existing concrete. It's ideal for residential or commercial use without the costly expense. McKrete Overlay System has a diverse functionality and it can be applied to pool decks, driveways, patios, hotel lobbies, shopping centers, and retail stores.

Uniquely designed to resemble stone, granite, tile or slate that's long-lasting and tougher than concrete. With such versatility, it can match any color or texture you are looking for.

Use **McKrete Overlay System** to beautify your concrete and create an amazing surface.
