

## The Next Generation Of Decorative Concrete Flooring...

A high definition 3D image is achieved by blending metallic pigment with clear epoxy binder that results in seamless sheer elegance.

Aurora Epoxy Dust reflects light rather than absorbing it, producing a floor that has more depth and dimension than is obtainable with concrete staining.

*Such stone-like illusions are coveted by Interior designers, architects, and property owners . Our system provides the ultimate uniform surfacing solution. Professional contractors recognize the true value of a fast application process that greatly decreases down time, potential for non-uniformity, and other stress factors associated with concrete stains and overlays. Once applicators have successfully accelerated into the future applying Aurora Epoxy Dust, they will not look back at the antiquated past.*

Pearlescent Metallic Flooring System

### PRODUCT DESCRIPTION

Aurora Epoxy Dust Concentrated Pigment is a pre-packaged nano-particle pigment that is field blended with a variety of clear coating resin binders. Available in 12 standard colors. Other colors are available on a custom order basis with minimum order quantities. Aurora Epoxy Dust pigments are designed for use with 100% solids premium water clear floor epoxies.

### WHERE TO USE

Aurora Epoxy Dust pigments are designed for use as a floor system, countertop system, or other horizontal surface to create one of a kind unique designs to enhance any architectural image. Aurora Epoxy Dust pigments are unique fusions of colorants that are influenced by the systems and substrate they are placed upon. Since it is a field creative medium, laboratory samples are difficult to reproduce. Always refer to jobsite samples for reproducibility in the field. This is a very important aspect when working with dynamic fusion systems creating the unique Aurora Epoxy Dust look.

Ideal for residential use, office complexes, commercial areas, lobbies, or light industrial applications.

### ADVANTAGES

- Used in 100% solids clear epoxy without compromise to the binders physical properties.
- Unlimited color variations as colors can be intermixed or custom ordered.
- Easy to install. The product develops its own patina with little installer effort to develop its look.
- Multi-dimensional. Color hues vary depending on lighting conditions and view angle. Sold in pigment packs to allow greater versatility and user control. Color mixing, color loading, and primer color all affect the final look.

### COVERAGE RATES

60 sq. ft. per mixed gallon of 100% solids water clear epoxy binder.
